

TO: All Agents and Brokers (ALL CANADA)

BULLETIN NO.: ALL.AGCY 2023-02

DATE: November 9, 2023

SUBJECT: Rater Tools Available on Facility Association Website

Our Servicing Carrier, The Nordic Insurance Company of Canada (Nordic), has developed easy-to-use Raters to help calculate FARM vehicle premiums electronically.

Links to these Raters are now available on the Facility Association website, supporting improved accuracy and efficiency in your quoting needs.

The lines of business currently available by jurisdiction include:

Alberta and Territories – All Lines

Atlantic Provinces – Private Passenger, Commercial, Motorhome, Public (Private Bus, Taxi)

Ontario – Commercial, Public (Public Bus)

Quoting tools for additional lines of business will be made available as additional development is completed, so check back often. To ensure you are using the most recent updates incorporated in the tools, we recommend accessing them via the links provided rather than downloading a copy to your computer.

For your convenience, you can click on the link below to access the rating tools:

<https://facilityassociation.com/BrokerAgents/Resources/RaterTools>.

As you may already know, Raters are also accessible on <https://www.nordicbroker.ca/>.

If you have any questions regarding the Raters, please contact Nordic.
