**SUBJECT: TRANSPORTATION NETWORK COMPANIES**

With the advent of transportation network companies, Members are being reminded that, in accordance with the Facility Association (FA) approved Risk Sharing Pool manuals, risks used for carrying passengers for compensation are not eligible for transfer to the Risk Sharing Pools in all jurisdictions. Consequently, risks being used in conjunction with transportation network companies, or similar ride-for-hire arrangements, remain ineligible for ceding.

The criteria for ceding to the FA Risk Sharing Pools are provided in the respective manuals on the FA website [www.facilityassociation.com](http://www.facilityassociation.com). [Please refer to Section B: Risk Eligibility for the Risk Sharing Pools].
